

ANTINUCLEAR  
GATHERING  
AND OTHER STUFF

NEAR BURE  
16TH-26TH AUGUST 2021

**From August 16 to 26, next to Bure**

**LET'S MEET AGAINST THE DEADLY  
NUCLEAR POWER AND  
ITS WORLD OF DOMINATIONS!**

2021 is a crucial year.

If CIGEO, project of a nuclear waste burrying center,  
is declared to be in the public interest\*,  
the Meuse region will become Cigeo-compatible  
for thousands of years.

There is still time to stop it!

Come and talk, create, disobey, think, dance, scream,  
walk, run!

Together we'll make a beautiful, self-managed camp.

Together we'll make connections, leave our  
mark and tell this destructive system to go to hell.

*\*In 2020, a request for a Declaration of Public Utility  
was filed for the Cigeo project.*
